SKILLS

Languages

PHP, SQL, JavaScript, Python, C/C++, Dart

Backend & Frameworks

Laravel, MVC Architecture, RESTful APIs, OOP, SOLID Principles

Mobile Development

Flutter, Dart, Cross-Platform Development, State Management (Bloc/Cubit/ Riverpod/ Getx)

Databases

MySQL, Database Design, Query Optimization, Indexing

Backend Concepts

Authentication & Authorization, API Security, Role-Based Access Control, Caching Concepts, Background Jobs

Integrations

Payment Gateways, Third-Party APIs, OpenAI API, Pusher

DevOps & Tools

Git, GitHub, Docker (Basics), Postman, Jira

Other

Data Structures & Algorithms, Problem Solving, Clean Code Principles

SUMMARY

Laravel Back-End Developer with 2+ years of experience building scalable RESTful APIs. Extensive background in Flutter mobile development, specializing in Clean Architecture and seamless API-to-App integration.

EDUCATION

Bachelor of Computer Science

Thebes Academy

2018 – 2022

EXPERIENCE

Back-End Developer

Zeem 

09/2024 – Present

- Designed and implemented scalable RESTful APIs using Laravel for a ride- sharing platform
- Collaborated with frontend and mobile teams to deliver production-ready features
- Optimized MySQL database schemas and queries for high-traffic scenarios
- Implemented authentication, authorization, and role-based access control
- Integrated payment gateways and third-party services

Back-End Developer

Syntrum Solution 

10/2022 – 09/2023

- Engineered backend systems using Laravel following MVC architecture
- Designed optimized relational database schemas using MySQL
- Improved application performance and code maintainability

Programming Coach

Coach Academy 

07/2022 – 09/2022

- Coached students for regional competitive programming contests
- Prepared training materials focusing on algorithms and data structures

ACHIEVEMENTS

Participant in ACPC 2021 [↗](#)

**Participant in ECPC
2019,2020,2021** [↗](#)

CERTIFICATES

- Master the Coding Interview: Data Structures + Algorithms [↗](#)
- Object Oriented Programming in Java [↗](#)
- C Programming: Using Linux Tools and Libraries [↗](#)
- The Complete 2021 Flutter & Dart Development Course [↗](#)
- Flutter & Dart - The Complete Guide [↗](#)
- Flutter Internship Certificate [↗](#)
- PHP/Laravel Internship Certificate [↗](#)
- ECPC - Egyptian Collegiate Programming Contest [↗](#)
- ACPC - Africa & Arab Collegiate Programming Championship [↗](#)
- Front End Development [↗](#)

LANGUAGES

Arabic — Native/Bilingual

English — Proficient

PROJECTS

Zeem - Ride-Sharing Plattform [↗](#)

- Developed backend services using Laravel and MySQL for a ride-sharing application
- Built scalable RESTful APIs supporting new transportation services
- Implemented authentication, authorization, and service integrations

Magsala – Multi-Vendor Laundry Ecosystem [↗](#)

- Architected and developed a comprehensive laundry management platform using PHP/Laravel and MySQL, featuring a multi-role backend for Users, Store Owners, and Delivery Riders.
- Engineered a scalable RESTful API infrastructure with over 80+ endpoints to synchronize real-time order states, dynamic delivery timeslots, and location-based service zones.
- Integrated secure financial systems, including a Moyasar payment gateway and a dedicated wallet system with earnings reports, withdrawal workflows, and payout tracking.
- Built a centralized administrative dashboard to oversee global system settings, promotional coupons, category management, and data-driven business reporting.

E-Commerce Plattform [↗](#)

- Built a full-featured e-commerce backend using Laravel
- Implemented product, order, and user management systems
- Designed backend logic for admin dashboard

AI Chatbot [↗](#)

- Integrated OpenAI API with Laravel for AI-powered chat functionality
- Designed clean API structure for chatbot interactions

Laragigs – Job Marketplace Plattform [↗](#)

- Implemented advanced job search and filtering functionality
- Built user profile management for employers and candidates
- Designed secure authentication and role-based access control
- Integrated database relationships using MySQL for scalable data handling
